Applications Modelling and simulation. One application of scientific modelling is the field of modelling and simulation, generally referred to as "M&S". M&S has a spectrum of applications which range from concept development and analysis, through experimentation, measurement and verification, to disposal analysis.

Systems Simulation: The Shortest Route to Applications. This site features information about discrete event system modeling and simulation. It includes discussions on descriptive simulation modeling, programming commands, techniques for sensitivity estimation, optimization and goal-seeking by simulation, and what-if analysis.

NEMO for Nucleus for European Modelling of the Ocean is a state-of-the-art modelling framework of ocean related engines for oceanographic research, operational oceanography, seasonal forecast and [paleo]climate studies.. The physical core engines are OPA (ocean), LIM (sea-ice) and TOP-PISCES (biogeochemistry) which are fully described in their reference publications.
